

**Oh Lord my body is ill and failing me.
Oh great and mighty God let me find the healing
within your mighty power to be cleansed. My
creator you know how I am made, fix me Lord,
heal me for I need your unending strength. I am
nothing without you, you are my rock, my source
of strength. Let the light of your soul illuminate
the part of me which is dark that I may find
the health that is natural to me. Amen**
